Universal Tilting Wall Mount for 32-60" plasma / LCD screens

PWB2 is an universal tilting wall mount for 32-60" plasma / LCD screens with a load capacity of up to 80kg. For optimal viewing comfort PWB2 allows up to +/-12° adjustment of tilt. Its design ensures quick, easy and safe installation:

PWB2 consists of a back plate that can be fixed to a brick, stud or concrete wall and the two front plates that are mounted to the back of the screen.
The screen together with the front plates can be comfortably hooked to the back plate. The universal bracket contains also two security screws in order to keep the screen in position.
Tilting angle can be comfortably adjusted by two handles at the side of the front plates.

After mounting screen hangs like a picture and distance to the wall is reduced to a minimum. Included in the box are screws and spacers for different TV makes and models.
